

SAT Strategy

Spring Break Intensive

Are you planning to take the SAT May or June?

AGOS Japan has over two decades of experience with SAT prep.

In this course, you will learn to recognize every question type found on the SAT and learn strategies to attack each of them.

Reading for the SAT demands the use of analytical skills and inference. These lessons will teach not only SAT strategies, but also ways to accelerate vocabulary acquisition and hone critical reading skills in regular school studies.

The Writing lessons focus on the most commonly tested grammar points on the SAT, how to spot them, and how to eliminate incorrect responses.

The first class will consist of a two-hour diagnostic level check, which will allow you to get a reliable estimate of your own strengths and weaknesses before the class begins. At the conclusion of the course, there will be a full diagnostic practice test to measure your improvement.
