TOEFL iBT® TEST Speaking Practice Manual  
(アゴス・ジャパンサンプルアンサー付)

### COURSE GOALS

---

**We will review the four speaking tasks, introduce effective test-day strategies, and show you how to be an independent learner.**

In this course, we will:

1. Encourage and motivate you as you study
2. Go over different approaches to the independent task
3. Introduce effective reading and listening skills for the integrated tasks
4. Summarize and practice many integrated tasks

### TIPS FOR TAKING THIS COURSE

---

▪ **Prepare a classroom-like environment**

You will be more likely to learn if you are in a quiet, distraction-free setting. You should have your textbook and a pen or pencil with you to take notes.

▪ **Speak out loud**

In order to develop your speaking skills, you need to speak! Make sure you are in a place where you can speak at a natural volume.

▪ **Treat your practice time like it's the real test**

On the real test, you only get one chance to speak. So, if you make a mistake while practicing, you need to try to recover and keep going. Treat each speaking practice opportunity like it really matters!
