After the practice test, an SAT instructor will give on-the-spot feedback, and review some of the trickier questions from that test. (60 minutes) This instant review, while the test experience is still fresh in your mind, can give you a valuable boost before the actual test

### SAT Strategy Package < 45 hours > (Including SAT Practice Test [001/002])

The cornerstone of our SAT program is the full SAT Strategy course. In 45 hours, we address every question type found on the SAT, and teach practical, effective strategies for each type. You will learn to recognize the tricky questions of the SAT. We also focus on key skills such as essay writing, vocabulary building, and mastering the grammar points most commonly tested on the SAT. We strictly limit class sizes to ensure plenty of individual attention. The lessons are fast-paced and fun, but with ample review and practice. Each course begins and ends with a full SAT® diagnostic test to help students to identify their strengths and weaknesses, and measure improvement. Students who would prefer to study only one section (Reading & Writing or Math) may do so.
